Managed Funds Association Statement on European Commission President Juncker's State of the Union Address

“European Commission President Juncker has made the development of a Capital Markets Union a key policy goal of the European Union. Managed Funds Association welcomes the European Commission's efforts to date to realise this project, which will contribute to growth and jobs in Europe. MFA members, as investors in European markets and professional asset managers for European institutional investors, have a shared interest with policymakers in ensuring deep and robust European capital markets. We look forward to the European Commission Action Plan on the CMU and to continue the constructive dialogue with President Juncker, Vice-President Katainen, Commissioner Lord Hill, Members of the European Parliament and other key European and national policy makers,” said Richard H. Baker, President & CEO of Managed Funds Association.

In the spirit of these common objectives, MFA, in cooperation with POLITICO, is pleased to host a breakfast with Lord Hill on 1 October in Brussels to further discuss the CMU Action Plan with stakeholders. More information can be found here www.politico.eu/event/capital-markets-union-breakfast

About Managed Funds Association

Managed Funds Association (MFA) represents the global alternative investment industry and its investors by advocating for sound industry practices and public policies that foster efficient, transparent, and fair capital markets. MFA, based in Washington, DC, is an advocacy, education, and communications organization established to enable hedge fund and managed futures firms in the alternative investment industry to participate in public policy discourse, share best practices and learn from peers, and communicate the industry's contributions to the global economy. MFA members help pension plans, university endowments, charitable organizations, qualified individuals and other institutional investors to diversify their investments, manage risk, and generate attractive returns. MFA has cultivated a global membership and actively engages with regulators and policy makers in Asia, Europe, the Americas, Australia and all other regions where MFA members are market participants.
